SUPERVISORS HOLD REGULAR MEETING

The Board of Supervisors met in
regular session Monday, May 6th,
there being present P. H. McEvoy,
presiding, Wm. H. Brown, Jas. T.
Casey and Joseph M. Francis.

Surveyor Neuman reported to the
board that he had completed
the surveys of the county
roads and requested that the board
go over his work with him with a
view to making grade changes if
any be deemed necessary. It was
agreed to spend Friday and Satur-
day in an inspection of the roads
and Brown was delegated to make
the necessary arrangements for
the trip.

A communication was received
from Auditor Underhill calling at-
tention to the fact that an act
of the late legislature made it
necessary for him to prepare an
annual financial report of the coun-
ty for the State Controller, which
work he was unable to do with
his present force. He asked per-
mission to employ the necessary
clerical help to do the work and
was granted same on motion of
Francis, seconded by Brown.

Francis stated that complaints
had reached him and after consult-
ing with the district attorney he
had concluded to appoint an assist-
ant poundmaster. He therefore no-
minated Bert Smith for the office.
The nomination was seconded by
Casey and Smith was elected.

A communication was received
from John O'Farrell, the court-
house gardener, notifying the board
that a number of plants had been
damaged in shipping to the amount
of \$13.08. The clerk was directed
to take the matter up with the
Wells-Fargo Company.

Julia McLean, residing at Alpine,
applied to the board for the usual
allowance of \$8 from the indigent
fund on behalf of her father, A. O.
Brice. The matter was referred to
the chairman on motion of Casey,
seconded by Francis, there being
some doubt as to whether the appli-
cant was a resident of the county.
Ordinance 49, passed by the city
council of South San Francisco, and
ordinance 38, passed by the coun-
cil of Daly City, were received by
which that portion of the Mis-
sion road within these cities is
turned over to the county for the
State Highway.

Casey advised that the ordi-
nances be held until it is definite-
ly known that the highway is com-
ing through Daly City and down the
Mission Road.

Casey rendered a report of the
proceedings of a meeting held in
San Francisco recently which was
attended by representatives of
Santa Cruz and Monterey counties,
and the Interurban Relations com-
mittee of the city board of super-
visors, himself representing this
county. The proposed coast boule-
vard from the San Francisco line
through San Mateo, Santa Cruz and
Monterey counties was discussed and
an effort will be made at a fu-
ture meeting to enlist the aid of
the State Highway Commission in
the project.

A communication was received
from Dr. T. H. Smith of San
Bruno calling the board's attention
to an instance of a child at that
place having been bitten by a dog
recently which animal was proven
to have rabies. The child was
sent to San Francisco for the
Pasteur treatment.

Dr. Beattie, the health officer,
mentioned a number of cases of
dogs that had gone mad in the coun-
ty and attacked people, a notable
case being at Halfmoon Bay recently
when an old lady was attacked by
a dog that it was proven had
rabies. He asked the board to
pass the ordinance under considera-
tion preventing dogs from running
at large unless muzzled.

Francis said that he was at
first opposed to the ordinance but
knowing of the case of rabies at
Halfmoon Bay he was satisfied that
prompt measures must be taken to
protect the people from mad dogs.
The ordinance restraining dogs
from running at large was taken up
and adopted on motion of Casey,
seconded by Brown, and the clerk
was directed to send a copy to
each of the county papers for pub-
lication.

On motion of Brown, seconded by
Blackburn, each member of the
board was authorized to employ a
special officer to enforce the ordi-
nance at a salary of \$25 per month,
and to destroy all dogs that are
found running at large not muzzled.
For each of such animals destroyed
the officer is to receive \$1
he to furnish proof of having killed
the animal.

The chairman was authorized to
execute a lease with the railroad
company for an oil pumping station
at Menlo Park at a rental of \$1
per year, on motion of Brown, se-
conded by Blackburn.

W. G. Beattie was re-elected coun-
ty health officer on motion of Cas-
ey, seconded by Brown.

On motion of Blackburn, secon-
ded by Brown, the county surveyor
or was directed to continue the
survey of the County Road from
Pescadero to Santa Cruz county line.
Blackburn was authorized to have
the Anderson bridge in his town-
ship repaired at a cost not to ex-
ceed \$150.

On motion of Brown, seconded by
Casey, the surveyor was author-
ized to approve bills for team hire
for his assistants at \$7.50 per

day.
Chairman McEvoy was authorized
to employ the surveyor for half a
day to survey route for a road
to his (McEvoy's) rock crusher.

On motion of Brown, seconded by
Blackburn, the auditor and treas-
urer were directed to transfer
\$1500 from the Second road fund to
the Fifth road fund as a loan,
to be returned in August.

The allowance of \$8 per month
to Thomas Broughman from the In-
digent fund was ordered discontin-
ued on motion of Blackburn, secon-
ded by McEvoy.

C. M. Dorse presented a map of
the Sequoia tract in the Third
township which was accepted by the
usual resolution, adopted on mo-
tion of Brown, seconded by Cas-
ey.

"FOR THE COUNTY'S GOOD."

On next Tuesday the Republicans of California will decide which they prefer as chief executive of the Nation, the man who favors the naturalization of the Japanese, or the man who was largely instrumental in securing for the state the location of the Panama Pacific Exposition.

"No man of better training, no man of more dauntless courage, no sounder common sense and of higher and finer character has ever come to the Presidency than William Howard Taft."—Theodore Roosevelt.

Francis J. Heney, nominee for delegate at large on the Roosevelt ticket, is a shining example of the self-styled "Progressive Republicans." Heney never voted a Republican ticket in his life until he voted for Hiram Johnson for governor.

In a letter to a prominent labor leader four years ago, Colonel Roosevelt, in referring to Mr. Taft's attitude toward organized labor, said: "He will do everything in his power for them except to do what is wrong; he will do wrong for no man, and therefore can be trusted by all men."

The people of California are just now being treated to another sample of "Progressive" politics. Pressing matters of public business are being set aside while the Governor, paid for attending to the business of the whole people, is going about the state doing partisan politics.

CALIFORNIA OWES A DEBT.

Should the Republicans of California fail to endorse the candidacy of President Taft for renomination, they will lay themselves open to a charge of base ingratitude. At all times the President has shown himself to be the ardent friend of this state. In his capacity as the Panama-Pacific Exposition at San Francisco he conferred a assistance in securing the location of the exposition upon the whole state, every section of which will reap a great and immediate advantage. Particularly is the President entitled to the united support of the laboring classes, who will enjoy the first of the material fruits of the great enterprise. In the construction of the buildings and the preparations of the grounds thousands of men who would otherwise have been idle will be given profitable employment.

A WORD OF CAUTION.

While the sample ballot for the Presidential primary election presents the appearance of a very simple document, it nevertheless presents possibilities of serious mistakes on the part of the voter. This is made especially manifest by the out come of the election in Massachusetts, where while President Taft received the majority of the preferential votes he failed to secure the election of the delegates at large. The voter will observe that the head of the primary ballot are the names of the candidates for the Republican nomination. Opposite each name is a square in which to put a cross to indicate the preference of the voter. For instance, the voter who prefers Taft will place a cross in the square opposite his name. This however will not count as a vote for the Taft ticket; it merely indicates a preference.

To vote for the Taft ticket and make the vote effective, a cross must also be stamped in the square in the column where the names of the Taft nominees for delegates are printed. There are no district delegates and the ticket must be voted for as a whole in all sections of the state. These are important facts which should not be ignored by the voters who favor the renomination of President Taft. While it is desirable that the President should have as large a preferential majority as possible, it is essential that the cross should be stamped in the square opposite the Taft nominees for delegates to make the election effective.

WHAT THE OTHER SIDE THINKS.

The New York Herald, a Democratic newspaper, published the following editorial the morning after President Taft made his celebrated speech at Boston: "William Howard Taft is president of the United States. He is one of the best and sanest presidents this country has. No one ever accused him of breaking his word. No one ever charged him with doing a dishonorable act. No one ever indicted him for betraying a friend. He has never been branded a coward, bully or a traitor. His chief defects in the high office he holds have been excessive credulity, belief in friendship and slavery to judicial temperament. Mr. Taft is now the chief figure, but he is not. He is merely the castigated. "The President has at last made a speech that will not merely be read through, it will be read through many times. The self-control shown by Mr. Taft at Boston, the distress he feels in shattering one of his dearest ideals through the inexplicable conduct of Mr. Roosevelt, the high sense of duty

which has impelled him to make revelations which will surely shock some sections of the Colonel's support, and the reserve force indicate in the argument, all stand like a human document. "In some respects the President's speech is appalling. It is a speech made by the President of the United States against another man who once held that high office. He has never broken his word. He has never wilfully or wantonly harmed a human being, but Mr. Taft will be congratulated for having at last overcome amiability and for having spoken plainly, just as he was censured for remaining quiet so long and keeping the public in ignorance. He has rendered a public service of the highest order and the country will await with deepest interest the further developments of what was fortunately at last a two-sided controversy with the President apparently having much the best of it."

SOME REASONS WHY.

Following are a few reasons, briefly stated, why we believe President Taft should receive a renomination at the hands of the Republican party: Because he has enforced the Sherman Anti-Trust law without fear or favor. Because he has established the Postal Savings Bank for the poor man. Because he has brought the workman's compensation act to a successful issue in the courts and put it into operation. Because he has established a bureau of mines to safeguard the lives of the miners. Because he is in favor of practical conservation. Because he has transformed a deficit of \$58,000,000 left under the Roosevelt administration to a surplus this year of \$30,000,000. Because he believes in a scientific revision of the tariff. Because when the Panama-Pacific Exposition was practically lost to California he told Congressmen and Senators that San Francisco was the logical place and should be chosen.
